 Year T-Shirts

John Deere Mobile RTK Signal

The John Deere Mobile RTK network delivers a real-time kinematic correction signal via 4GLTE cellular connection. The signal is delivered to the machine's StarFire 3000/6000 receiver through JDLink Connect enabled Modular Telematics Gateway.

With this cellular delivery method,
 producers have the following benefits:

- No line-of-sight requirement to a single base station
- Work in areas with challenging terrain (trees, hills, etc.)
- Seamless roaming anywhere in the Mobile RTK network
- Complete John Deere integrated solution

Pottinger Rakes and Tedders

Our tried and tested rakes and tedders will convince you with their perfect ground hugging. This allows you a clean forage without any dirt. The wide wheels in conjunction with the Multitast wheel on headstock improve the slope efficiency considerably. High quality standards of manufacture guarantee a long service life.
